To Whom It May Concern:

I am pleased to offer this letter of recommendation for E.A.D. Mechanical. Our architectural firm has had experience with E.A.D. for over ten years. We have found them to be the most knowledgeable, fair and competent contractor we have worked with. In fact, when our office moved and we built a new space, we insisted that E.A.D. perform the work, even given that their initial bid was a bit higher.

E.A.D. has branched out and started working as a general contractor. Our firm was the architect of record for the interior improvements at Mount Ennon Baptist Church, and was fortunate to have E.A.D. on board as the general contractor. Elliot and his associates worked through every issue with fairness and their trademark of knowledge and competency.

I wholeheartedly endorse E.A.D. as the contractor of choice for mechanical work and general contracting.

Sincerely,

BIGNELL WATKINS HASSER
ARCHITECTS, P.C.
